

Location of Important Bird Areas that contain areas which qualify as Ramsar Sites in Chad

Designation progress

Areas within three Important Bird Areas qualify currently as Ramsar Sites in the Republic of Chad. Designation coverage

is complete within two of these, while one (33%) of the suitable IBAs in Chad has no Ramsar designation as yet.

Summary of Important Bird Areas that contain areas which qualify as Ramsar Sites in Chad

IBA code	IBA name	IBA area (ha)	Ramsar Site name	Ramsar Site area (ha)	Ramsar criteria			
					2	4	5	6
Ramsar designation of IBA complete (2 IBAs)								
TD004	Lake Chad	2,600,000	Partie tchadienne du lac Tchad	1,648,168	●	●	●	
TD005	Lake Fitri	195,000	Lac Fitri	195,000	●	●	●	●
Subtotal					1	2	2	2
Ramsar designation of IBA lacking (1 IBA)								
TD006	Zakouma National Park	300,000			●	●		●
Subtotal					1	1	-	1
Grand total					2	3	2	3

For the full details of each site, including bird populations, see Fishpool and Evans (2001) and the Data Zone at www.birdlife.net by 2003. See 'Identifying potential Ramsar Sites' (p.11) for a description of the site- and species-selection procedure and the method for evaluating adequacy of Ramsar coverage that have been used in this report.

Threatened species

Within the two IBAs that contain areas that qualify as Ramsar Sites under Criterion 2, two wetland-dependent species of global conservation concern occur regularly in significant numbers.

Summary of the occurrence of wetland species of global conservation concern within the selected IBAs

Species name and global threat status (IUCN 2000; see p.147)

IBA code	Ferruginous Duck <i>Aythya nyroca</i> (LR/nt)	Black Crowned-crane <i>Balearica pavonina</i> (LR/nt)	Grand total
TD005	●	●	2
TD006		●	1
Grand total	1	2	3
