

Project Title: Coordination of the AEWA Species Working Groups for the Lesser Flamingo Southern Ethiopia

Region or Country: Africa:

Date of Project Approval: August 2010

Focal Area: Species Conservation

Project Status: Ongoing

Amount of Financing: USD 8,085

Donor: United Nations Environment Programme/ AEWA Secretariat

Project Description:

Overall Goal:

To convene the AEWA International Working Groups for Lesser Flamingo, White-winged Flufftail and Madagascar Pond-heron, and coordinate all aspects of their work to ensure active cooperation and successful implementation of the International Single Species Action Plans for the Conservation of the three species

Objectives:

1. Convene the Working Groups and ensure their effective internal communication.
2. Facilitate tracking of SSAP implementation at the national level and support production of national Single Species Action Plans where relevant.
3. Raise the profile of the respective Working Groups.
4. Support fundraising efforts to secure resources for the implementation of the three respective SSAPs.
5. Provide support to the wider BirdLife Africa Species Conservation Programme, especially as relates to Single Species conservation action while building own capacity.

Recent Project Status:

- Progress: All the three groups have been convened.
