

Title

KBA Name	Country	KBA Number	Species Scientific Name
Itombwe Mountains	DR Congo	COD4	Afropavo congensis
			Arthroleptis hematogaster
			Arthroleptis pyrrhoscelis
			Callixalus pictus
			Caprimulgus prigoginei
			Chiloglanis asymetricaudalis
			Chloropeta gracilirostris
			Cryptospiza shelleyi
			Glaucidium albertinum
			Gorilla beringei
			Hyperolius castaneus
			Hyperolius chrysogaster
			Hyperolius leleupi
			Hyperolius leucotaenius
			Loxodonta africana
			Muscicapa lendu
			Nectarinia rockefelleri
			Pavetta kyimbilensis
			Phodilus prigoginei
			Phrynobatrachus acutirostris
Phrynobatrachus bequaerti			
Phrynobatrachus versicolor			
Prionops alberti			
Pseudocalyptomena graueri			
Schoutedenapus schoutedeni			
Varicorhinus leleupanus			

This table includes a list of trigger species found in this KBA (these are species fulfilling either vulnerability or irreplaceability criteria in the Ecosystem Profile, available [here](#)).
