

Nature Iraq Photo Exhibition - now online

Title

For those who missed the recent photo exhibition about Nature Iraq's (BirdLife in Iraq) work, you can now view it [on their website](#).

This exhibition on our website was first shown at the BIRDscapes Gallery in Norfolk, England from 4 - 25 July 2010, where it was hosted by Nature Iraq and BirdLife International. NI's Chief Executive visited and gave a talk on the Mesopotamian Marshes to a large and appreciative audience. The exhibition was extremely popular and opened the eyes of the British people to the wonderful scenery and wildlife of Iraq as well as tell the story of Nature Iraq's conservation achievements. It received much coverage in the British and international press and raised over \$2,500 for Nature Iraq's conservation programme.
