

Critically Endangered Birds: A Global Audit

Title

The report is drawn from material developed for State of the World's Birds, a broader report which is available for download and as an extensive searchable database – click to visit www.birdlife.org/sowb for further information and examples. Critically Endangered Birds is a product of the BirdLife Preventing Extinctions Programme. It presents the science underpinning the programme and the actions needed by other organisations, agencies and governments to complement it. **Click to Download: Report:** '[Critically Endangered Birds: A Global Audit](#)' (PDF, 3.36 MB) **Presentation:** '[Critically Endangered Birds: A Global Audit](#)' (PPT, 459 KB)
