

## BIRDLIFE INTERNATIONAL AFRICA PARTNERSHIP

BirdLife Africa is a global Partnership non-governmental organisations (NGOs) striving to conserve birds, their habitats and global biodiversity, working with people towards the sustainable use of natural resources.

*"Strives to conserve birds, their habitats and global biodiversity, working with people towards sustainability in the use of natural resources."*

*The BirdLife Mission.*

Currently, the Partnership works in more than 100 countries through 106 national grassroot conservation NGOs. In Africa, the BirdLife Africa Partnership is a growing network of 20 such organisations plus two Country Programmes covering 22 countries with a combined total of more than 300 staff and 30,000 members. Partners are involved in research, conservation action, environmental education and sustainable development through a broad agenda focusing on birds, other fauna and flora, and socio-economic issues such as poverty alleviation.

### AFRICA PROGRAMME PRIORITIES

The BirdLife Programme in Africa covers the conservation of wild birds as an integral part of nature, protection of Important Bird Areas (IBA), management and restoration of the diverse habitats that sustain vital ecological services and the empowerment and expansion of an Africa-wide constituency of people who care for their natural environment. The main activities include development and implementation of Species Action Plans; identification, monitoring, and taking conservation for IBAs; the development and empowerment of Site Support Groups; linking conservation with development and poverty alleviation; and capacity development at all levels.

### BIRDLIFE AFRICA PARTNERSHIP VISION FOR THE FUTURE

The BirdLife Africa Partnership envisions a future in which the Millennium Development Goals for Africa are met, especially Goal 1 – to halve poverty by 2015 and Goal 7 – to ensure environmental sustainability.
