

BIRDLIFE INTERNATIONAL - JOB SPECIFICATION/DESCRIPTION

JOB TITLE:	Biodiversity Data Technical Officer
DIVISION/DEPARTMENT:	Science

1. OVERALL PURPOSE OF JOB

To support the management of BirdLife's spatial and tabular datasets on species and important sites for their conservation in order to maintain the quality and integrity of these data, and provide summaries of them through information dashboards and reports. To undertake advanced data manipulation and analysis to support decision making and the identification of important sites for conservation. To provide data management support to the Science Division and Regional Divisions, and to support the provision of data and information services to end users.

2. STAFF RELATIONSHIPS

REPORTING TO (LINE MANAGER):
Senior Biodiversity Data Manager
REPORTING TO JOB HOLDER (LINE MANAGED STAFF):
None.
PRINCIPAL STAFF RELATIONSHIPS/RESPONSIBILITIES WITHIN SECRETARIAT
Working closely with other Science staff, in particular the Conservation Data Manager, GIS Development Officer, GIS Officer, the Global Science Coordinator (IBAs/KBAs), Global Science Technical Officer (IBAs/KBAs), members of the Marine Team, and other Departments and Regional Divisions as appropriate, in particular the Regional IBA Coordinators.
PRINCIPAL STAFF RELATIONSHIPS/RESPONSIBILITIES WITHIN BIRDLIFE NETWORK
Staff within BirdLife Partner organisations. Also, scientific, policy, and data management people in other conservation organisations, other end users requesting our data, and software developers.

3. KEY WORKING RELATIONSHIPS

Contact	Level (1-3)	Contact	Level (1-3)	Contact	Level (1-3)
BirdLife Network Organisation Staff	2	General Public	2	Institutional policy makers /Politicians/ Corporations	0
BirdLife Advisory Groups, Committees, Reg. Councils	0	Press & Media	0	Institutional Funders	0
BirdLife Global Council	0	Regulators/Legislators/ Auditors	0	Individual donors/ members	0
Suppliers/Service Providers	1	Scientific Community	2	Royalty/VIPs/ High worth Individuals	0
Level of Contact					
1.= General Informing. "Appearance, first impressions". May have some independent outside exposure and contact, primarily informative.					
2.= Presenting/Representing/Reporting "Relationship management". Frequent exposure representing BirdLife. Maintaining individual contacts. Frequently managing information flow.					
3.= Justifying/Negotiating - "Influencing decision makers". Frequent exposure as lead contact, representing Birdlife to highly influential people. Responsible for complex and sensitive/high risk communications.					

4. MAIN DUTIES/WORK PROGRAMME RESPONSIBILITIES

By main work area:

1. Contribute to the management of BirdLife's biodiversity databases, including tabular and spatial data on Important Bird and Biodiversity Areas (IBAs) and Key Biodiversity Areas (KBAs) in the World Database of KBAs (WDKBA) and the World Bird and Biodiversity Database (WBDB), and data on species in the Species Information Service (SIS).
2. Maintain and update existing species and sites dashboards on the BirdLife Data Zone and KBA website, and assist in the specification, design, and implementation of other information dashboards, data outputs and reports as required.
3. Use advanced data analysis techniques and manipulation of information to support data import, management and analysis, and help with interpreting data and synthesising information to support decision making.
4. Undertake analyses of IBA/KBA tabular and spatial data to support identification of IBAs and KBAs, identify and address deficiencies in datasets, and inform scientific analyses etc.
5. Assist BirdLife Partners, the BirdLife Secretariat and KBA Secretariat with processing new IBA and KBA datasets, and preparing and integrating these into the WDKBA and WBDB as appropriate.
6. Deliver training to stakeholders to ensure that best use is made of information systems, reports and dashboards as required.
7. Support the provision of spatial and tabular data requested by BirdLife Partners, other organizations, the scientific community and the general public.
8. Contribute to BirdLife's science work (particularly on IBAs/KBAs) more generally as appropriate and assist with other BirdLife Science and Policy activities as needed.

BIRDLIFE INTERNATIONAL - JOB SPECIFICATION/DESCRIPTION

5. LIMITS OF AUTHORITY/RESPONSIBILITY FOR RESOURCES

RESPONSIBILITY AREA	LEVEL OF AUTHORITY
Financial/Budgetary	None
Contracts – Funders	None
Contracts – Staff/Consultants	None
Contracts – Service providers	None
Legal Responsibility	None
Other	Responsible for ensuring work is completed to high scientific standards

6. EDUCATION/SKILLS AND OTHER SPECIAL REQUIREMENTS

REQUIREMENTS	KNOWLEDGE/SKILLS/ATTRIBUTES
Minimum General Education	Educated to degree level (preferably in environmental sciences, computing or information technology).
Job Specific Education/ Qualification	BSc (or higher) in environmental science, computer science, GIS, geography, or equivalent relevant work experience in an information management related discipline
Job Specific Knowledge	<ul style="list-style-type: none"> • Proven ability to critically assess and synthesise information. • Practical experience of querying and maintaining large spatial and tabular datasets. • Familiarity working with relational databases such as PostgreSQL. • Ability to manage and manipulate large datasets using SQL. • Knowledge of Power BI or equivalent software for data visualization. • Practical knowledge of R for analysis and production of data products. • Familiarity with Google Earth Engine application and functionality
Experience	<ul style="list-style-type: none"> • Demonstrable experience of advanced data manipulation • Experience of compiling data from multiple sources, data cleaning and checking. • Practical experience of querying and managing large databases.
Management & organisational skills	Ability to organise own time according to a brief and work with a high level of initiative and under pressure, in order to meet targets within agreed timeframes.
Communications skills	Good communication skills, willing to work as part of a team and to report on and develop tasks and roles. Diplomatic skills and sensitivity to the range of different cultural styles within the BirdLife Partnership.
Creativity & Initiative	Ability and willingness to contribute ideas to improve the effectiveness and efficiency of delivering project outputs.
Computer Literacy	Microsoft Office, ArcMap and/or other GIS software, R, Power BI and Python;
Languages	Fluency in English required. Other languages an
